All of the profiles that appear in this 125th Anniversary Edition of Randall Brothers' Moulding and Millwork Catalog are currently stocked in our warehouses. You may pick up your order in person or we can arrange for delivery to your home or to your jobsite.

The appearance of custom moulding can be achieved by using combinations of our stock patterns. Many design problems can be solved by this method without the expense of a custom designed profile. Some suggestions are shown at the back of this catalog. If you do not find a solution, we can supply practically any size or shape with a special-run moulding made to your specifications.

Randall Brothers can produce your stock or custom-made mouldings in a wide variety of species in addition to those listed next to each drawing. Choose from white or yellow pine, poplar, maple, cherry, cypress, sapele, mahogany, oak, birch, ash, walnut, redwood, beech, alder, and cedar. Please call us for other species if your project calls for one not listed.

Whether you are trying to duplicate an historic moulding profile or wish to have a true custom-designed profile made for your one-of-a-kind project, Randall Brothers is your destination for those that appreciate the detail and craftsmanship necessary to produce the finest quality results.
